

IOT AT YOUR FINGERTIPS

Powered by
estate123 IoT

Monitor your Premise from as low as RM25/device/month!

Introducing the estate123.IoT solution where you can monitor temperature, humidity or detect smoke in your premise with our easy to install IoT solution.

You will be able to access to our dashboard with data that will allow you to monitor the status of your premise using any devices as long as it is connected to the Internet.

Just 3 Simple Steps!

Choose the solution that you wanted and click buy.

We will deliver the product to your doorstep.

Follow instruction to install and login to the dashboard to start using.

The Things

IoT Sensors

Temperature, Humidity & Smoke Sensor

MQTT
SPARKPLUG B

The Cloud
